

The value of assets represented by institutions and individuals committing to some sort of divestment from fossil fuel companies

\$5.2 trillion

Assets invested:

\$1.3 trillion

Divesting institutions are also more diverse than ever: no one sector represents more than a quarter of commitments.

Source: Arabella Advisors: "The Global Fossil Fuel Divestment and Clean Energy Investment Movement," December 2016

Individuals:

58,399

Organisations:

688

Explicit investment commitments:

322

In 2016, commitments to divest from fossils fuels are more global than ever. Individual and institutional pledges span 76 countries, and 55 percent of divesting institutions are based outside of the United States.
